Whether it is a balance sheet of a company, a cinema hall, or of a school; auditing evaluates all! This comprehensive book, now in its second edition, is a

compendium of a textbook; a handbook of Auditing Standards; a question bank, and a compilation of model answers. This text is organized in four parts. Part 1 (Principles) enunciates the standards and the concepts, which form the bases of auditing. Part 2(Process) provides a stepwise description of the auditing process, adopted by the auditors while performing audit engagements. Part 3 (Performance) deals with the auditing engagement and shows how the verification of

financial elements such as receipts, payments, purchases, sales, assets and liabilities is conducted. Part 4 (Practice) demonstrates the practical aspects of audits of specific entities such as private limited companies, charitable trusts, hospitals and so on. This book is primarily intended for the students of Chartered Accountancy (appearing for the CA-PCC examination), Cost Accounting, Company Secretary, and postgraduate students of Finance and Accounting. Apart from that, the book is also useful for the practising Chartered Accountants and Financial officers of companies, as a reference handbook. Key Features : Incorporates 67 practical questions (with structured solutions) to help the students to apply the principles to practical situations. Comprises 147 case studies to help identify the issues involved, place them in the right context and arrive at a correct conclusion. Provides 285 innovative true and false type questions (with their

reasoned answers) to strengthen the grasp of the subject. Contains 1267 answer-in-brief questions, which are cross-referenced. New to this Edition : Explains all the latest Standards on Auditing applicable for financial years 2009–2010 and 2010–2011. Includes model answers for all relevant descriptive examination questions, asked in the CA-PCC/Final examinations till June 2009. Numerous newly drafted questions (true or false, answer-in-brief, descriptive type) on latest auditing standards with answers/cross references.

AUDITING AND ASSURANCE

CLIFFORD GOMEZ 2012-03-17

In this modern world of large-scale business and industry, auditing has become an inevitable function. Auditing is a subject, the function of which is very important from the regulatory, economic and ethical points of view. The subject has undergone radical changes in the current globalised business world. This book, in the light of latest trends, highlights and explains the principles and practice of auditing and assurance in a simple and an easy-to-understand language. It also presents an up-to-date legal discussion on the subject. Beginning with an overview of the subject, the text discusses in detail the classification and preparation of an audit, procedures and techniques of auditing, internal control,

internal check and internal audit, vouching, verification and valuation of assets and liabilities, and depreciation. Besides, it deals with reserves and provisions, capital and revenue, profits, audit of companies, and classes of investigation. The book concludes with a discussion on accounting and auditing standards, management audit, cost audit, tax audit, government audit and social audit. The textbook is primarily intended for the undergraduate students of Commerce. It will also be useful to those preparing for CA, ICWA and CS examinations. **KEY FEATURES :** Incorporates latest developments in auditing techniques. Discusses latest international and Indian auditing standards. Examines the impact of computerisation on audit approach. Gives chapter-end questions to test the students' understanding of the concepts discussed.
