The Woodwright's Workbook Roy Underhill
2012-01-01 Roy Underhill is America's best-known master of traditional woodcraft. Creator of the popular PBS series The Woodwright's Shop, Roy has inspired millions--from professional craftsman to armchair woodworker--with his talent, knowledge, and enthusiasm. Roy returns

here with his third book. The Woodwright's Workbook features step-by-step instructions for a selection of projects from his television series. All projects are illustrated with photographs and measured drawings. Included here are plans for tool chests, workbenches, lathes, and historical reproductions of items for the home: a six-board chest, rustic chairs

with cattail seats, a churn for the kitchen, and the Rittenhouse hygrometer. Roy also explores building barns, forges, boats, and even colonial fortresses. A wonderful feature of this book is Roy's own translation of the humorous fifteenth-century poem The Debate of the Carpenter's Tools. He also provides a fascinating and useful 'field guide' to American tool marks that shows how to identify the specific tool used by the marks it left. Whether Roy is an old friend or a new acquaintance, let him be your guide to the world of traditional woodworking.

filled book profiles scores of farm tractor classics from the twentieth century. Veteran tractor author Robert Pripps tackles each model with aplomb, offering concise descriptions and histories along with informative specification charts that give the lowdown on all-important considerations like horsepower ratings, engine sizes, weights, fuel types, and more. Illustrated with color photography by Ralph Sanders and Andrew Morland, *Classic Farm Tractors* is arranged chronologically to give a better sense of farm tractor evolution and includes all of the usual suspectsâ€”from the likes of John Deere, Farmall, Fordson and Ford, Case, Allis-Chalmers, Minneapolis-Moline, Best, Caterpillar, Massey-Harris, Massey-Ferguson, Oliver, Rumely, and Hart-Parrâ€”as well as lesser-known and forgotten marques manufactured throughout the United States and

Canada. In addition, Pripps includes a generous selection of farm tractors from Europe, including models from Fiat, Lanz, Le Percheron, Renault, Deutz, and more. *Classic Farm Tractors* is an entertaining look at the tractors we all know and love as well as the oddball tractors that fans find fascinating. With well over 200 photographs of more than 100 years of tractors from all over North America and Europe itâ€™s the perfect gift for tractor lovers. /div
