**Gentle Shepherding** Joseph Earl Bush 2012-11 Named "One of the Top Ten Books for Parish Clergy" for the year 2006 by the Academy of Parish Clergy! Gentle Shepherding offers a rare balance in an introduction to pastoral ethics, one that identifies deeply with the pastoral vocation and brings it into conversation with a developed body of ethical theory. The goal of the book is to equip seminarians and pastors with conceptual resources for clarifying moral responsibility in the practice of ministry. This responsibility includes three levels: the minister as a moral agent in offering care; the minister as a moral enabler in encouraging virtue in others; and the minister as a moral leader in facilitating congregational life and

witness in society. Helping ministers and seminarians to think anew about their responsibilities and the moral quandaries in pastoral practice, Gentle Shepherding integrates theory with practice, providing case material for further reflection and discussion and at least one case study or exercise associated with each chapter.

Made in America Claude S. Fischer 2010-05-15 Our nation began with the simple phrase, "We the People." But who were and are "We"? Who were we in 1776, in 1865, or 1968, and is there any continuity in character between the we of those years and the nearly 300 million people living in the radically different America of today? With *Made in America*, Claude S. Fischer draws on decades of historical, psychological, and social research to answer that question by tracking the evolution of American character and culture over three centuries. He explodes myths—such as that contemporary Americans are more mobile and less religious than their ancestors, or

that they are more focused on money and consumption—and reveals instead how greater security and wealth have only reinforced the independence, egalitarianism, and commitment to community that characterized our people from the earliest years. Skillfully drawing on personal stories of representative Americans, Fischer shows that affluence and social progress have allowed more people to participate fully in cultural and political life, thus broadening the category of “American” —yet at the same time what it means to be an American has retained surprising continuity with much earlier notions of American character. Firmly in the vein of such classics as *The Lonely Crowd* and *Habits of the Heart*—yet challenging many of their conclusions—*Made in America* takes readers beyond the simplicity of headlines and the actions of elites to show us the lives, aspirations, and emotions of ordinary Americans, from the settling of the colonies to the settling of the suburbs.

**The Abuse of Minors in the Catholic Church** Anthony J. Blasi 2020-03-26 This book offers an academically rigorous examination of the biological, psychological, social and ecclesiastical processes that allowed sexual abuse in the Catholic Church to happen and then be covered up. The collected essays provide a means to better assess systemic wrongdoing in religious institutions, so that they can be more effectively held to account. An international team of contributors apply a necessarily multi-disciplinary approach to this difficult subject. Chapters look closely at the sexual abuse of minors by Roman Catholic clerics, explaining the complexity of this issue, which cannot be reduced to simple misconduct, sexual deviation, or a management failure alone. The book will help the reader to better understand the social, organizational, and cultural

processes in the Church over recent decades, as well as the intricate world of beliefs, moral rules, and behaviours. It concludes with some strategies for change at the individual and corporate levels that will better ensure safeguarding within the Catholic Church and its affiliate institutions. This multifaceted study gives a nuanced analysis of this huge organizational failure and offers recommendations for effective ways of preventing it in the future. As such, it will be of keen interest to scholars of Religious Studies, Sociology of Religion, Psychology, Psychiatry, Legal Studies, Ethics, Anthropology, Cultural Studies, History, and Theology.

**Alcohol, Addiction and Christian Ethics** Christopher C. H. Cook 2006-05-04

Addictive disorders are characterised by a division of the will, in which the addict is attracted both by a desire to continue the addictive behaviour and also by a desire to stop it. Academic perspectives on this predicament usually come from clinical and scientific standpoints, with the 'moral model' rejected as outmoded. But Christian theology has a long history of thinking and writing on such problems and offers insights which are helpful to scientific and ethical reflection upon the nature of addiction. Chris Cook reviews Christian theological and ethical reflection upon the problems of alcohol use and misuse, from biblical times until the present day. Drawing particularly upon the writings of St Paul the Apostle and Augustine of Hippo, a critical theological model of addiction is developed. Alcohol dependence is also viewed in the broader ethical perspective of the use and misuse of alcohol within communities.

Women in Scripture Carol Meyers 2000-03-30 "This splendid reference describes every woman in Jewish and Christian scripture . . . monumental" (Library Journal). In recent decades, many biblical scholars have studied the holy text with a new focus on gender. *Women in Scripture* is a groundbreaking work that provides Jews, Christians, or anyone fascinated by a body of literature that has exerted a singular influence on Western civilization a thorough look at every woman and group of women mentioned in the Bible, whether named or unnamed, well known or heretofore not known at all. They are remarkably varied—from prophets to prostitutes, military heroines to musicians, deacons to dancers, widows to wet nurses,

rulers to slaves. There are familiar faces, such as Eve, Judith, and Mary, seen anew with the full benefit of the most up-to-date results of biblical scholarship. But the most innovative aspect of this book is the section devoted to the many females who in the scriptures do not even have names.

Combining rigorous research with engaging prose, these articles on women in the Hebrew Bible, the

Apocryphal/Deuterocanonical Books, and the New Testament will inform, delight, and challenge readers interested in the Bible, scholars and laypeople alike. Together, these collected histories create a volume that takes the study of women in the Bible to a new level.

**Control and Consolation in American Culture and Politics** Dana Cloud

1997-11-26 In this perceptive analysis, Dana Cloud traces the replacement of social and political activism by the pursuit of personal, psychological change. She identifies the new movement as the "rhetoric of therapy", where a persuasive cultural discourse that applies concepts such as coping and adapting replaces active attempts to reform flawed systems of social and political power. Cloud focuses on the therapeutic discourse that emerged after the Vietnam War and links its rise to specific political and economic interests. Critical case studies identify the extent to which therapeutic discourses are persuasive, including: the rhetoric of "family values"; media coverage of "support groups" during the Gulf War; Gloria Steinem's *Revolution from Within*; the film *Thelma and Louise*; and literature of the New Age Movement.
