A History of Long Island, Vol. 2 Peter Ross With these books an effort has been made to present the history of the whole of Long Island in such a

way as to combine all the salient facts of the long and interesting story in a manner that might be acceptable to the general reader and at the same time include much of that purely antiquarian lore which is to many the most delightful feature of local history. Long Island has played a most important part in the history of the State of New York and, through New York, in the annals of the Nation. It was one of the first places in the Colonies to give formal utterance to the doctrine that taxation without representation is unjust and should not be borne by men claiming to be free—the doctrine that gradually went deep into the hearts and consciences of men and led to discussion, opposition and war; to the declaration of independence, the achievement of liberty and the founding of a new nation. It took an active part in all that glorious movement, the most significant movement in modern history, and though handicapped by the merciless occupation of the British troops after the disaster of August,

1776, it continued to do what it could to help along the cause to which so many of its citizens had devoted their fortunes, their lives. This is volume two out of three, covering the history of Kings County, Brooklyn and Queens.

**American Indian Politics and the American Political System** David Eugene Wilkins 2011

""This book is a lively and accessible account of the remarkably complex legal and political situation of American Indian tribes and tribal citizens (who are also U.S. citizens) David E. Wilkins and Heidi Kiiwetinesiiik Stark have provided the go-to' source for a clear yet detailed and sophisticated introduction to tribal sovereignty and federal Indian policy. It is a valuable resource both for readers unfamiliar with the subject matter and for readers in Native American studies and related fields, who will appreciate the insightful and original scholarly analysis of the authors."--Thomas Biolsi, University of California at Berkeley" ""American Indian Politics and the American Political System

is simply an indispensable compendium of fact and reason on the historical and modern landscape of American Indian law and policy. No teacher or student of American Indian studies, no policymaker in American Indian policy, and no observer of American Indian history and law should do without this book. There is nothing in the field remotely as comprehensive, usable, and balanced as Wilkins and Stark's work."--Matthew L.M. Fletcher, director of the Indigenous Law and Policy Center at Michigan State University College of Law" ""Wilkins has written the first general study of contemporary Indians in the United States from the disciplinary standpoint of political science. His inclusion of legal matters results in sophisticated treatment of many contemporary issues involving Native American governments and the government of the United States and gives readers a good background for understanding other questions. The writing is clear-not a minor matter in such a complex subject--and short case histories are presented,

plus links (including websites) to many sources of information."--Choice

**Modern Criticism and Theory** David Lodge 1988 'A Reader' aims to provide, within the covers of a single book, a selection of important and representative work from all the major theoretical schools or tendencies in contemporary criticism, and to place them before the reader in two alternative orders: one historical, the other thematic.

**Appletons' Cyclopaedia of American Biography: Lodge-Pickens** James Grant Wilson 1888

**The Year of Henry James** David Lodge 2006 Where do novelists get their 'ideas' from? How do they develop an idea into a narrative with a specific and individual form? How far is the reception of a work of fiction conditioned by factors outside the writer's control? In the first part of this book, in revealing and often amusing reminiscence, David Lodge traces the history of his recent novel about Henry James, AUTHOR,

AUTHOR, from the very first mention of the basic idea in his notebook, through the processes of research and writing, to the publication and reception of the finished book, which was adversely affected by the appearance of another novel on the same subject some six months earlier. These two were not the only novels inspired by Henry James in circulation in the year 2004, a phenomenon which Lodge sees with hindsight as 'a coincidence waiting to happen', with ironic consequences that the Master himself might have invented. The essays in the second part pursue the themes of genesis, composition and reception in the work of other novelists. There are studies of key works by James himself, H.G.Wells, Vladimir Nabokov, J.M.Coetzee and Umberto Eco, and essays on the literary sources of Graham Greene's imagination and on a significant anthology of the 'Best of Young American Novelists'. Collectively the contents of this book throw a brilliant light on the dominant literary form of the last two

centuries, in its twin aspects as work of art and commodity.

*American Imperialism and the State, 1893-1921*

Colin D. Moore 2017-04-17 American Imperialism and the State recasts imperial governance as an episode of American state building.

History of Criminal Justice Mark Jones 2011-07-11 Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction to the historical problems of crime, law enforcement and penology, set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text concludes with a chapter that addresses

terrorism and homeland security. \* Spans all of western history, and examines the core beliefs about human nature and society that informed the development of criminal justice systems. The fifth edition gives increased coverage of American law enforcement, corrections, and legal systems \* Each chapter is enhanced with supplemental "Timeline," "Time Capsule," and "Featured Outlaw" boxes as well as discussion questions, notes and problems \* Contains discussion questions, notes, learning objectives, key terms lists, biographical vignettes of key historical figures, and "History Today" exercises to engage the reader and encourage critical thinking

*Encyclopedia Of Freemasonry And Its Kindred Sciences, Volume 3: M-R* Albert G. Mackey Dr.

Albert G. Mackey appears as author of this "Encyclopedia of Freemasonry and its Kindred Sciences," which, being a library in itself, superseded most of the Masonic works which have been tolerated by the craft — chiefly because none better could be obtained. Here is a work which fulfils the hope which sustained the author through ten years' literary labor, that, under one cover he "would furnish every Mason who might consult its pages the means of

acquiring a knowledge of all matters connected with the science, the philosophy, and the history of his order." Up to the present time the modern literature of Freemasonry has been diffuse, lumbering, unreliable, and, out of all reasonable proportions. There is, in Mackey's "Encyclopaedia of Masonry," well digested, well arranged, and confined within reasonable limits, all that a Mason can desire to find in a book exclusively devoted to the history, the arts, science, and literature of Masonry. This is volume three out of four and covering the letters M to R.

**The Public School Journal** 1920

**Democracy for Hire** Dennis W. Johnson 2016-10-18 Though they work largely out of the public eye, political consultants—"image merchants" and "kingmakers" to candidates—play a crucial role in shaping campaigns. They persuaded Barry Goldwater to run for president, groomed former actor Ronald Reagan for the California governorship, helped derail Bill

Clinton's health care initiative, and carried out the swiftboating of John Kerry. As Dennis Johnson argues in this sweeping history of political consulting in the United States, they are essential to modern campaigning, often making positive contributions to democratic discourse, and yet they have also polarized the electorate with their biting messages. During the nineteenth and early twentieth centuries, political campaigns were run by local political parties, volunteers, and friends of candidates; but as party loyalties among voters began to weaken, and political parties declined as sources of manpower and strategy, professional consultants swept in to fill the void. Political consulting emerged as a profession in the 1930s with publicists Leone Baxter and Clem Whitaker, the husband and wife team who built their business, in part, with a successful campaign to destroy Upton Sinclair's 1934 bid for governor of California. With roots in advertising and public relations, political consulting has since

developed into a highly professionalized business generating hundreds of millions of dollars. In fact, some of the top campaign consulting firms have merged with others to form multinational public relations conglomerates, serving not just candidates but also shaping public advocacy campaigns for businesses and nonprofits. Johnson, an academic who has also worked on campaigns alongside the likes of James Carville and pollster Paul Begala, suffuses his history with the stories of the colorful characters who have come to define the profession of consulting, from its beginning to the present. More than just the story of the making of a political business, Democracy for Hire's wide-ranging history helps us to better understand the very contours of modern American politics.

She Preached the Word Benjamin R. Knoll  
2018-06-01 She Preached the Word is a

landmark study of women's ordination in contemporary American congregations. In this groundbreaking work, Benjamin R. Knoll and Cammie Jo Bolin draw upon a novel collection of survey data and personal narrative interviews to answer several important questions, including: Who supports women's ordination in their congregations? What are the most common reasons for and against women's ordination? What effect do female clergy have on young women and girls, particularly in terms of their psychological, economic, and religious empowerment later in life? How do women clergy affect levels of congregational attendance and engagement among members? What explains the persistent gender gap in America's clergy? Knoll and Bolin find that female clergy do indeed matter, but not always in the ways that might be expected. They show, for example, that while female clergy have important effects on women in the pews, they have stronger effects on theological and political liberals.

Throughout this book, Knoll and Bolin discuss how the persistent gender gap in the wider economic, social, and political spheres will likely continue so long as women are underrepresented in America's pulpits. Accessible to scholars and general readers alike, *She Preached the Word* is a timely and important contribution to our understanding of the intersection of gender, religion, and politics in contemporary American society.

**Builders of Empire** Jessica Harland-Jacobs 2007 They built some of the first communal structures on the empire's frontiers. The empire's most powerful proconsuls sought entrance into their lodges. Their public rituals drew dense crowds from Montreal to Madras. *Colour: The Professional's Guide* Karen Triedman 2015-11-05 Colour is one of the most complex elements of design and it is also what people respond to first on an emotional level, whether they are surveying a restaurant interior or browsing an online catalogue. An in-depth

understanding of colour is one of the most important and useful assets available to a visual professional. Working successfully with colour in a global community involves understanding colour theory and psychology, as well as geographical and historical reference. This information is covered thoroughly, with clear and precise explanations and examples. Colour: The Professional's Guide is comprehensive, offering informative techniques, examples, inspiration and, above all, exemplary solutions to fit the designer's every need, whatever their discipline. Beautifully illustrated with over 300 colour images, this guide removes the grey areas from the full colour world of contemporary design, providing designers from all disciplines with everything they need to become true, confident colourists.

**America, History and Life** 1989 Article abstracts and citations of reviews and dissertations covering the United States and Canada.

**Early American Cultures** Tim McNeese 2002-09-01 This packet provides a detailed and richly illustrated overview of the lives of the first Americans. Styles of shelter, modes of travel and transport, tribal beliefs, habits, practices, and the unique structures of various tribal societies are discussed. Challenging review questions encourage meaningful reflection and historical analysis. A map, test, answer key, and extensive bibliography are included.

**American Masonic Record, and Albany Saturday Magazine** 1830

*Character Counts* Michael Glenn Maness 2010-12

**Author, Author** David Lodge 2004 David Lodge's novel begins at James' midlife, the last twenty years of the 19th century when James' fortunes were at their lowest, culminating in his largest debacle, the failure of his play "Guy Domville." At the center of the novel is his friendship with the writer George Du Maurier, who provides James with the story behind Trilby.

When James passes on using it for the basis of a novel, Du Maurier writes it instead and it becomes a bestseller. Du Maurier, however, has difficulty coping with success while James decides he must try harder to achieve it.
