The Mysteries of London. First and Second Series[-Third Series by T. Miller-fourth Series by E. L. Blanchard]. George William MacArthur Reynolds 1850

Women and Religious Writing in Early Modern England Erica Longfellow 2004-09-23 This study challenges critical assumptions about the role of religion in shaping women's experiences of authorship. Feminist critics have frequently been uncomfortable with the fact that conservative religious beliefs created opportunities for women to write with independent agency. The seventeenth-century Protestant women discussed in this book range across the religio-political and social spectrums and yet all display an affinity with modern feminist theologians. Rather than being victims of a patriarchal gender ideology, Lady Anne Southwell, Anna Trapnel and Lucy Hutchinson, among others, were both active negotiators of gender and active participants in wider theological debates. By placing women's religious writing in a broad theological and socio-political context, Erica Longfellow challenges traditional critical assumptions about the role of gender in shaping religion and politics and the role of women in defining gender and thus influencing religion and politics.

Women Teachers and Feminist Politics, 1900-39 Alison Oram 1996

Women teachers were key players in twentieth century feminism. They fought for women's suffrage before the First World War and continued their vigorous campaigns for equal pay, equal promotion opportunities and abolition of the marriage bar into the less promising political environment of the 1920s and 1930s. This book is the first to offer a detailed assessment of why women teachers were so politically active, and makes an important contribution to the literature on women's politicisation. Drawing on interviews with women teachers (in state elementary and secondary schools) as well as the records of teachers' associations and central and local government, it explores the tensions in the relationship between their position at the workplace and their family lives and unravels the connections and dissonances between how they saw themselves as both women and professional teachers.

Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory Musingafi, Maxwell

Constantine Chando 2021-04-23 Much of our understanding of the world, our societies, and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes. This male-dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building. Feminism argues that the male-dominated knowledge represents a skewed perception of reality and is only partial knowledge. Feminism is a generalized, wide-ranging system of ideas about social life and human experience developed from a woman-centered perspective. It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world. The best way to empower women and better the situation for women is to take women's daily experiences and their informal theorizing into account and, on this basis, adopt feminist approaches to building theory and knowledge.

Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences. This book provides a starting point for further and more advanced study of the nexus of feminism, gender, and development and translates feminist theory and concepts into practice. The chapters investigate, in a historical context, mainstream and contemporary theories of feminism and gender studies. This book is ideal for post-graduate

students of social science; researchers of development management, business management, public governance, and gender and development; activists; feminists; and practitioners, stakeholders, researchers, academicians, and students interested in feminist theory and knowledge building.

A Guide to Mental Health Issues in Girls and Young Women on the Autism Spectrum Judy Eaton 2017-09-21 This book addresses the specific mental health needs of girls and young women with autism spectrum disorder (ASD). Looking at the ways autism presents differently in girls than in boys, and the mental health conditions that occur most frequently in girls with ASD, this is the essential guide for clinicians and educators on tailoring interventions and support to meet girls' needs. Describing the current assessment process for autism diagnosis, the book explains why girls are under- or mis-diagnosed, leading to later mental health issues. It outlines the types of intervention that are particularly helpful for working with girls to reduce anxiety, improve social interaction skills, and manage self-harm. The book also covers how to manage eating disorders and

feeding difficulties, focusing on working with girls with sensory processing difficulties. There is advice on how to deal with the emotional impact on parents, carers and families, and the challenges they face when negotiating appropriate psychological and educational support.

The Female Instructor; Or, Young Woman's Companion: Being a Guide to All the Accomplishments which Adorn the Female Character, Etc 1811

What is a Woman to Do? Kyriaki Hadjiafxendi 2011 This anthology contributes to a scholarly understanding of the aesthetics and economics of female artistic labour in the Victorian period. It maps out the evolution of the Woman Question in a number of areas, including the status and suitability of artistic professions for women, their engagement with new forms of work and their changing relationship to the public sphere. The wealth of material gathered here - from autobiographies, conduct manuals, diaries, periodical articles, prefaces and travelogues - traces the extensive debate on women's art, feminism and economics from the 1830s to the 1890s. Combining for the first time nineteenth-century criticism on literature and the visual arts, performance and craftsmanship, the selected material reveals the different ideological positions surrounding the transition of women from idleness to serious occupation. The distinctive primary sources explore the impact of artistic labour upon perceptions of feminine sensibility and aesthetics, the conflicting views of women towards the pragmatics of their own creative labour as they encompassed vocations, trades and professions, and the complex relationship between paid labour and female fame and notoriety.

The "People Power" Women's Guide (Identity, Independence, Fashion, Feminism, Family, Happiness, Domestic Violence: Live a Better Life) Tony Kelbrat 2013-12-06 Women have been defined by men in men's terms until relatively recently but now that women are coming into their own both out in the workforce and as separate entities unto themselves, the question is, once you throw off the shackles of what it means to be a woman as defined by men all throughout history, what exactly is a woman as the pure essence she is in her soul? Women are as complex and individual as men if they choose to be yet as simple and one-dimensional as the stereotypical caricatures if they choose to be too so women are women just like men are men. In modern society, a woman can be pretty well anything she wants but the problem, hypocrisy or contradiction with all of this is that despite all this talk about freedom and being who you are, beyond a superficial, glossy façade of store-bought trendiness, most women are no different than the woman of 30 years ago and have no desire to be.

Narratives of British Socialism S. Ingle 2002-10-23 What can the study of narratives bring to our understanding of political ideas that other forms of analysis cannot? In *Narratives of British Socialism*, Stephen Ingle shows how imaginative literature can be used to give definition to political thought. The origins, development and eventual decline of British socialism are analyzed in the writings of Morris, Shaw, Wells, Huxley, Koestler,

Orwell and others. Ingle concludes that narratives can give us an experiential understanding of political ideas.

Mental Health, Intellectual and Developmental Disabilities and the Ageing

Process Vee P. Prasher 2020-12-22 This book brings together findings from research and clinical practice, with comprehensive coverage of the important aspects of mental health in ageing persons with intellectual and developmental disabilities. It is crucial for professionals involved in the

care of persons with all intellectual and developmental disabilities to have a broad understanding of the essential range of issues, and therefore this book provides a truly multi-disciplinary perspective, complete with many figures and illustrations to underline the key points. Undoubtedly, research and clinical practice are much more advanced in the general ageing population than in persons with intellectual and developmental disabilities, and so professionals and academics must be made fully aware of commonalities and idiosyncrasies of older people with intellectual and developmental disabilities. This book presents the ongoing developments concerning mental health and aging, which will become relevant to the intellectually disabled population. Through experience, this book also acknowledges that the impact on the persons themselves and on their carers always needs to be taken into account, with treatment programs established with a multi-faceted team approach in mind. Avoiding the jargon of many titles in this area while maintaining the hands-on approach of clinical practice, this book meshes the practical and scientific worlds, with all chapters written by leading experts in the field. Beyond the US, the IASSIDD support expands the book message worldwide.
