Grab a light drink and a bite,
and enjoy cocktail hour, the
French way. For the French, the
fleeting interlude between a
long workday and the evening
meal to come is not meant to
be hectic or crazed. Instead,
that time is a much needed
chance to pause, take a breath,
and reset with light drinks and
snacks. Whether it's a quick
affair before dashing out the

door to your favorite Parisian
bistro or a lead-up to a more
lavish party, Apéritif is about
kicking off the night, rousing
the appetite, and doing so with
the carefree spirit of connection
and conviviality. Apéritif
celebrates that easygoing
lifestyle with simple yet stylish
recipes for both classic and
modern French apéritif-style
cocktails, along with French-
inspired bites and hors
d'oeuvres. Keeping true to the
apéritif tradition, you'll find
cocktail recipes that use lighter,
low-alcohol spirits, fortified
wines, and bitter liqueurs. The

impressive drinks have influences from both Old World and New, but are always low fuss and served barely embellished—an easy feat to pull off for the relaxed host at home. Apéritif also offers recipes for equally breezy bites, such as Radishes with Poppy Butter, Gougères, Ratatouille Dip, and Buckwheat-Sel Gris Crackers. For evenings that are all about ease and approachability without sacrificing style or flavor, Apéritif makes drinking and entertaining at home as effortless, fun, and effervescent as the offerings themselves. Praise for Apéritif “With a dram of humor, Ms. Pepler provides a primer with the history and uses of various apéritifs.”—The New York Times, “19 Best Cookbooks of Fall 2018” “With witty and honest prose and stunning photography, this book is one to keep out on the coffee table (or bar cart).”—Food & Wine, “Best Cocktail Books of Fall 2018” “Step aside, Italian aperitivo. This book moves over into the equally stylish and luxurious

territory of the French cocktail hour, providing recipes for classic and contemporary before-dinner French cocktails, along with light bites.”—Epicurious

individual brewers, distillers and winemakers, as well as the names of their products. The dictionary aims to be of real, practical help in locating beers and ciders, wines and spirits of every hue to their maker and place of origin. Here, too, are descriptive terms used on labels, along with the less-formal words used by producers and purveyors to promote their products in the market place. Origins, from village breweries to entire wine-producing regions, are located by nation, province and district. In many cases, there is a mention of when a producer or product was established, perhaps a word about the founder or a brief explanation of a curious-sounding brand name. The book is laced with historical anecdotes, a thousand cocktail recipes, essays on topics from the Guinness dynasty to the principles of brewing, from the discovery of distilling to the history of excise duty - and illustrated with hundreds of drink labels from all around the world.

The Official History of Britain and the European Community
Stephen Wall 2012-06-27 This is the second volume in The Official History of Britain and the European Community, and describes the events from 1963 up until the British referendum on the Common Market in 1975. In 1963, General de Gaulle dashed Prime Minister Macmillan's hopes of taking Britain into the European Community (the Common Market). When Labour Prime

Minister Harold Wilson tried again, de Gaulle again said 'no'. Six years later, Prime Minister Edward Heath took Britain into the EEC. But by then the country was split and Harold Wilson, to keep the Labour Party from voting to leave, undertook to renegotiate Britain's membership. When Labour won the 1974 election that renegotiation culminated in the first nationwide referendum ever held in the United Kingdom. The British people voted by two to one to stay in the European Community, but British membership has been controversial ever since. This is the story of why three very different Prime Ministers all concluded that, in the British national interest, there was no viable alternative to joining the Common Market. In the words and documents of the time (those of politicians, diplomats and journalists from Britain, France and Germany) it relives the frustrations, successes and humiliations of British politicians as they wrestled with the most important issue of

their generation. It shows, with the authority of the Government papers of the day, where and why today's European controversy started and why yesterday's challenges, and the way they were confronted, hold valid lessons for our time. This book will be of much interest to students of British political history, European Union politics, Diplomatic History and International Relations in general.
