The Art of Armenia Christina Maranci 2018-09-14 Though immediately recognizable in public discourse as a modern state in a political "hot zone," Armenia has a material history and visual culture that reaches back to the Paleolithic era. This book presents a timely and much-needed survey of the arts of Armenia from antiquity to the early eighteenth century C.E. Divided chronologically, it brings into discussion a wide range of media, including architecture, stone sculpture, works in metal, wood, and cloth, manuscript illumination, and ceramic arts. Critically, *The Art of Armenia* presents this material within historical and archaeological contexts, incorporating the results of specialist literature in various languages. It also positions Armenian art within a range of broader

comparative contexts including, but not limited to, the ancient Mediterranean and Near East, Byzantium, the Islamic world, Yuan-dynasty China, and seventeenth-century Europe. The Art of Armenia offers students, scholars, and heritage readers of the Armenian community something long desired but never before available: a complete and authoritative introduction to three thousand years of Armenian art, archaeology, architecture, and design.

Armenians in Post-Socialist Europe

Konrad Siekierski 2016-04-18 This volume presents articles on the modern Armenian diaspora in post-socialist Europe, including the Baltic States, Belarus, Bulgaria, the Czech Republic, Hungary, Moldova, Poland, Romania, Russia and Ukraine. The Pre-history of the Armenians

Gabriel Soultanian 2003

Armenian Jasmine Dum-Tragut 2009 This grammar of Modern Eastern Armenian gives a precise and explicit description of the Eastern Armenian language of the Republic of Armenia. and of armenologists, but to all those who would like to acquaint themselves with linguistic data from living Armenian. It will also be of use to students wishing to learn Modern Eastern Armenian and to lecturers in Modern Eastern Armenian language courses.

Armenian Origins of Basque: The Linguistic Verdict Vahan Setyan 2018-01-25 Basque-Armenian language parallels are undeniable, statistically significant, and suspiciously absent in the mainstream academia. This manuscript brings forth the works of many who have examined the Basque language and most particularly, Vahan Sarkisian (1954-2011), a Basqologist, professor and world-renowned academician, who served as a Director of the Chair of Romance Philology at the University of Yerevan, President of the International Association of Hispanics, Director of the Basque-Armenian International Journal - Araxes, and an honorary academician of Euskaltzaindia (1919), the official institution, which is responsible for the Basque language, its corpus and its status in society. He saw the obvious link between two ancient language branches, but left this world too soon. This manuscript is aimed to resurrect his research and revitalize this topic for a

serious consideration across all scientific disciplines.

Armenians And The Iranian

Constitutional Revolution Of

1905-1911 Houri Berberian 2018-02-19

Drawing upon original sources, this study provides the most comprehensive treatment to date of the issue of Armenian politicization and participation in the Iranian Constitutional Revolution (1905-1911). Houri Berberian traces the political, economic, and social situation of Armenians in the nineteenth century with a special emphasis on the Armenian provinces of the Ottoman Empire, which became the focus of the Armenian revolutionary movement in the late nineteenth century, and on the Russian-ruled Caucasus, which became the source of the nationalist and socialist revolutionary movement. Discussion of the Iranian Armenian community includes, for the first time, a look into the roles and activism of Iranian Armenian women. Berberian explores the ideological, political, and pragmatic motivations of Armenians, and examines the collaboration of Armenian and Iranian constitutionalists, drawing attention to the ideological and military contributions of Armenians to the revolution as well as to the internal and external conflicts among Armenian activists and between Armenian and Iranian constitutionalist elements. Berberian concludes with a discussion of the causes and consequences of the retreat of Armenians from Iranian politics.

The International Politics of the Armenian-Azerbaijani Conflict Svante E. Cornell 2017-01-20 This book frames the Armenian-Azerbaijani conflict over Nagorno-Karabakh in the context of European and international security. It is the first book to focus on the politics of the conflict rather than the dispute itself. Since their emergence twenty years ago, this and other "frozen conflicts" of Eurasia have been affected by transformations in European security, and many ways absorbed into an ever fiercer geopolitical struggle for influence. The wars in Georgia and Ukraine brought greater attention to some unresolved conflicts, but not to the conflict between Armenia and Azerbaijan. As the contributors to this volume argue, the conflict merits much greater European attention, for several reasons: it is on a path of escalation, existing mediation regimes are dysfunctional, and as both Georgia and Ukraine have showed, any outbreak of serious fighting will force the EU to respond. This book thus explains the interlocking interests of Russia, Turkey, Iran, the EU and United States in the conflict, and analyzes the negotiation process and the conflict's international legal aspects.

The Armenians in the Medieval Islamic World Seta B. Dadoyan 2017-09-08 In this first of a massive three-volume work, Seta B. Dadoyan studies the Armenian experience in the medieval

Islamic world and takes the reader through hitherto undiscovered paradigmatic cases of interaction with other populations in the region. Being an Armenian, Dadoyan argues, means having an ethnic ancestry laden with narratives drawn from the vast historic Armenian habitat. Contradictory trends went into the making of Armenian history, yet most narratives fail to reflect this rich texture. Linking Armenian-Islamic history is one way of dealing with the problem. Dadoyan's concern is also to outline revolutionary elements in the making of Armenian ideologies and politics. This extensive work captures the multidimensional nature of the Armenian experience in the medieval Islamic world. The author holds that every piece of literature, including historical writing, is an artifact. It is a composition of many elements arranged in certain forms: order, sequence, proportion, detail, intensity, etc. The author has composed and arranged the larger subjects and their sub-themes in such a way as to create an open, dynamic continuity to Armenian history that is intellectually intriguing, aesthetically appealing, and close to lived experiences.

Armenian Neume System of Notation R.

A. At'ayan 2013-11-19 The study of the Armenian system of notation called Khazs (Neumes) is of significance both for Armenian and Byzantine music from a historical and aesthetic point of view. Over the centuries the Armenian people have created a musical culture which is largely inaccessible because of the fact that to this day the medieval notation of this music has not been deciphered. Prof. R.A. At'ayan's unique study based on the abundant manuscript sources of the Institute of Ancient Manuscripts (Erevan) not only traces the origin and development of this notation system convincingly, but also re-creates the tunes of the numerous chants and songs composed over the centuries.

Cooperative Efforts of Libraries Rita Pellen 2013-10-31 Explore a wide variety of cooperative initiatives—at regional, statewide, and international levels! This book examines a wide variety of cooperative efforts and consortia in libraries, both geographically and in terms of such activities as digitization and cooperative reference services. You'll learn how libraries are cooperating regionally, on the statewide level, and internationally to provide better service to all kinds of users. *Cooperative Efforts of Libraries* explores aspects of cooperation that include remote storage, virtual reference service, collection development, staff training and

instruction, preservation, interlibrary loan, and international cooperation in Latin America and the Caribbean. From the editors: "Cooperation used to mean primarily cataloging via OCLC, interlibrary loan, and perhaps mutual borrowing privileges, but economics and technology are combining to broaden the playing field considerably. This collection reflects this diversity." Part one of *Cooperative Efforts of Libraries* highlights cooperation in regional and statewide activity. You'll learn about: Metro, a multitype cooperative designed to coordinate the implementation of virtual reference among libraries in New York City cooperation between remote, rural, and isolated libraries in the Northern Great Plains and Rocky Mountain West regions, including the creation of the Online Dakota Information Network (ODIN) and similar organizations a Virtual Library of Virginia project in which the highly specialized skills of librarians were used to enhance vendor-supplied MARC records for a much more accessible full-text database the efforts of each university within the state system in Florida to contribute digitized versions of rare and specialized Floridiana to a joint electronic collection which is available to everyone in the state a centrally funded project to support the information literacy efforts of librarians at each campus of the California State University System and make all of them available at the other campus libraries a joint collection development project within the state universities and community and technical colleges of Minnesota the successful lobbying effort which brought them a \$3 million annual supplement to cooperatively redress past underfunding for collections the history of resource sharing in

Louisiana, Illinois, and Texas—detailed and extensive analyses Part two of Cooperative Efforts of Libraries presents a sampling of the wide variety of cooperative efforts that make libraries so unusual among institutions and librarians so unusual among professionals. In this section, the President of the Center for Research Libraries discusses the increasing cost and physical constraints that make it difficult for hundreds of libraries to store and preserve print copies of the same research materials. This section also examines: a collaborative digital reference project among three small liberal arts college libraries in New England the history of cooperative collection development among three Pennsylvania college libraries the University of Kansas Libraries' efforts to establish cooperative education programs to microfilm brittle books and create microform masters of embrittled volumes—which are then made available for sale to other libraries an American university's offer of interlibrary access to the students and faculty of an Armenian university where resources are severely limited the challenges of providing interlibrary loan in Latin America the planning of an international summit cosponsored by the Southeast Florida Library Information Network, a regional multitype cooperative in South Florida, and IFLA, designed to lay the groundwork for further cooperative efforts between U.S. libraries and libraries in Latin America and the Caribbean

The Foundations of Research and Regional Survey in the Tsaghkahovit Plain, Armenia Adam T. Smith 2009

Until recently, the South Caucasus was a virtual /terra/ /incognita/ on Western archaeological maps of southwest Asia. The conspicuous absence of marked places, of site

names, toponyms, and topography gave the impression of a region distant, unknown, and vacant. The Joint American-Armenian Project for the Archaeology and Geography of Ancient Transcaucasian Societies (Project ArAGATS) was founded in 1998 to explore this terrain. Our investigations were guided by two overarching goals: to illuminate the social and political transformations central to the regions unique (pre)history and to explore the broader intellectual implications of collaboration between the rich archaeological traditions of Armenia (former U.S.S.R.) and the United States. This volume provides the first encompassing report on the ongoing studies of Project ArAGATS, detailing the general context of contemporary archaeological research in the South Caucasus as well as the specific context of our regional investigations in the Tsaghkahovit Plain of central Armenia. The book opens with detailed examinations of the history of archaeology in the South Caucasus, the theoretical problems that currently orient archaeological research, and a comprehensive reevaluation of the material bases for regional chronology and periodization. The work then provides the complete results of our regional investigations in the Tsaghkahovit Plain, including the findings of the first systematic pedestrian survey ever conducted in the Caucasus. Thanks to the results presented in this volume, and Project ArAGATSs ongoing excavations in the area, the Tsaghkahovit Plain is today the best known archaeological region in the South Caucasus. The present volume thus provides archaeologists with both an orientation to the prehistory of the South Caucasus and the complete findings of the first phase of Project ArAGATSs field

investigations.

Armenian Job Claude E. Cox 2006

Armenian Job presents for the first time a critical edition of the Armenian translation of Job, which was translated from a Lucianic Greek manuscript in the early 5th century, and is, therefore, an important witness in the Septuagint tradition. The Armenian text is accompanied by a retroverted Greek text and by an English translation of the Armenian based on the translation of Job in the New English Translation of the Septuagint. The critical text is followed by a hundred pages of notes relating to issues of grammar, textual criticism, and the translator's technique in rendering the Greek into Armenian. The book begins with a listing of the 138 Armenian manuscripts that contain Job and the procedure for selecting the nine witnesses used in the critical edition; it ends with chapters devoted to the textual affiliations of the Armenian text, Conclusion, several appendixes, and a bibliography. In sum, this book makes a major contribution both to Armenian studies and to biblical studies; Armenian Job is the most extensive treatment of any biblical book in Armenian translation.

Spillovers from Global and Regional

Shocks to Armenia Knarik Ayvazyan

2015-11-23 Using a structural vector auto-regression (SVAR) model, this paper examines the size, geographical

sources, and transmission channels of global and regional shocks to the Armenian economy. Results show that Armenian economic activity is strongly influenced by global demand shocks and changes in oil prices, yet relatively immune to financial volatility. Transmission takes place through the Russian and EU economies, remittances, and external borrowing. The role of exports and tourism is

low. Russia is key in transforming the potentially negative impact of an increase in oil prices into a positive event, through stronger remittances and exports. Services and construction, which depend significantly on remittances and external borrowing, are the most affected by global and regional shocks.
