A New History of Ireland: Prehistoric and early Ireland Theodore William Moody 2005

A New History of Ireland, Volume I marks the culmination of the largest scholarly project in modern Irish history. It consists of nine volumes, by over a hundred contributors, mainly historians but including also historical geographers and specialists in other disciplines, such as language and literature, the visual arts, and music. Seven of the volumes are text, and deal not only with politics but also with economic, social, and cultural history. The other volumes contain maps and reference material. As the final volume to appear in this multi-volume series, A New History of Ireland Volume I brings to a close the project initiated by T. W. Moody and R. Dudley-Edwards in the 1960s, to provide a comprehensive new

synthesis of modern scholarship on every aspect of Irish history and prehistory, from the earliest geological and archaeological evidence, through the Middle Ages, and down to the present day. Volume I begins by looking at geography and the physical environment. Chapters follow which examine pre-3000, neolithic, bronze-age and iron-age Ireland and Ireland up to 800. Society, laws, church and politics are all analysed separately as are architecture, literature, manuscripts, language, coins and music. The volume is brought up to 1166 with chapters, amongst others, on the Vikings, Ireland and its neighbours, and opposition to the High-Kings. A final chapter moves further on in time, examining Latin learning and literature in Ireland to 1500.

*Colonisation and Conquest in Medieval Ireland* Brendan Smith 1999-04-22 This book examines the development of English colonial society in the eastern coastal area of Ireland now known as county Louth, in the period 1170-1330. At its heart is the story of two relationships: that between settler and native in Louth, and that between the settlers and England. An important part of the story is the comparison with parts of Britain which witnessed similar English colonization. Fifty years before the arrival of the English, Louth was incorporated into the Irish kingdom of

Airgialla, experiencing rapid change in the political and ecclesiastical spheres under its dynamic ruler Donnchad Ua Cerbaill. The impact of this legacy on English settlement is given due prominence. The book also explores the reasons why well-to-do members of local society in the West Midlands of England in the reigns of Henry II and his sons were prepared to become involved in the Irish adventure.

**A New History of Ireland, Volume II** Art Cosgrove 2008-11-06 A New History of Ireland is the largest scholarly project in modern Irish history. In 9 volumes, it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory, from the earliest geological and archaeological evidence, through the Middle Ages, down to the present day. Volume II opens with a character study of medieval Ireland and a panoramic view of the country c.1169, followed by nineteen chapters of narrative history, with a survey of 'Land and People, c.1300'. There are further chapters on Gaelic and colonial society, economy and trade, literature in Irish, French, and English, architecture and sculpture, manuscripts and illuminations, and coinage.

Classics and Irish Politics, 1916-2016

Isabelle Torrance 2020-10-28 This collection addresses how models from ancient Greece and Rome have permeated Irish political discourse in the century since 1916. The 1916 Easter Rising, when Irish nationalists rose up against British imperial forces, became almost instantly mythologized in Irish political memory as a turning point in the nation's history that paved the way for Irish independence. Its centenary has provided a natural point for reflection on Irish politics, and this volume highlights an unexplored element in Irish political discourse, namely its frequent reliance on, reference to, and tensions with classical Greek and Roman models. Topics covered include the reception and rejection of classical culture in Ireland; the politics of Irish language engagement with Greek and Roman models; the intersection of Irish literature with scholarship in Classics and Celtic Studies; the use of classical referents to articulate political inequalities across gender, sexual, and class hierarchies; meditations on the Northern Irish conflict through classical literature; and the political implications of neoclassical material culture in Irish society. As the only country colonized by Britain with a pre-existing indigenous heritage of expertise in classical languages and literature, postcolonial Ireland represents a unique case in the field of classical reception. This book opens a window on a rich and varied dialogue between significant figures in Irish cultural history and the Greek and Roman sources that have inspired them, a dialogue that is firmly rooted in Ireland's historical past and continues to be ever-evolving.

**Churches in Early Medieval Ireland**

Tomás Ó Carragáin 2010 This is the first book devoted to churches in Ireland dating from the arrival of Christianity in the fifth

century to the early stages of the Romanesque around 1100, including those built to house treasures of the golden age of Irish art, such as the Book of Kells and the Ardagh chalice. ♦ Carragáin's comprehensive survey of the surviving examples forms the basis for a far-reaching analysis of why these buildings looked as they did, and what they meant in the context of early Irish society. ♦ Carragáin also identifies a clear political and ideological context for the first Romanesque churches in Ireland and shows that, to a considerable extent, the Irish Romanesque represents the perpetuation of a long-established architectural tradition.
