The Man Who Got Carter Andrew Spicer 2013-10-24 Michael Klinger was the most successful independent producer in the British film industry over a 20 year period from 1960 to 1980, responsible for 32 films, including classics such as *Repulsion* (1965) and *Get Carter* (1971). Despite working with many famous figures- including actors Michael Caine, Peter Finch, Lee Marvin, Roger Moore, Mickey Rooney and Susannah York; directors Claude Chabrol, Mike Hodges and Roman Polanski and author Wilbur Smith- Klinger's contribution to British cinema has been almost largely ignored. This definitive book on Micheal Klinger, largely based on his previously unseen personal papers, examines his origins in Sixties Soho

'sexploitation' cinema and 'shockumentaries' through to major international productions including Gold (1974) and Shout at the Devil (1976). It reveals how Klinger deftly combined commercial product-the hugely popular 'Confessions' series (1974-78)- with artistic, experimental cinema that nurtured young talent, including Polanski and Hodges, Peter Colinson, Alastair Reid, Linda Hayden and Moshe Mizrahi, the Israeli director of Rachel's Man (1975). Klinger's career is contextualised through a reassessment of the British film industry during a period of unprecedented change and volatility as well as highlighting the importance of his Jewishness. The Man Who Got Carter offers a detailed analysis of the essential but often misunderstood role played by the producer.

### **Italian Colonialism and Resistances to Empire, 1930-1970**

Neelam  
Srivastava 2018-02-01  
This book provides an innovative cultural history of Italian colonialism and its impact on twentieth-century ideas of empire and anti-colonialism. In October 1935, Mussolini's army

attacked Ethiopia, defying the League of Nations and other European imperial powers. The book explores the widespread political and literary responses to the invasion, highlighting how Pan-Africanism drew its sustenance from opposition to Italy's late empire-building, and reading the work of George Padmore, Claude McKay, and CLR James alongside the feminist and socialist anti-colonial campaigner Sylvia Pankhurst's broadsheet, *New Times and Ethiopia News*. Extending into the postwar period, the book examines the fertile connections between anti-colonialism and anti-fascism in Italian literature and art, tracing the emergence of a "resistance aesthetics" in works such as *The Battle of Algiers* and Giovanni Pirelli's harrowing books of testimony about Algeria's war of independence, both inspired by Frantz Fanon. This book will

interest readers passionate about postcolonial studies, the history of Italian imperialism, Pan-Africanism, print cultures, and Italian postwar culture.

A Cultural Journey through the English Lexicon Roberto Facchinetti 2012-01-17  
This book is a metaphorical journey through the English lexicon, viewed as a vehicle and a mirror of cultural identity. From the translatability of phrases and metaphors to genre-specific terms,

from English as a Lingua Franca to English language teaching, the studies collected here testify to the fact that in English - and overall in language - word contextualization or lack of contextualization impinges on linguistic utterances and leads to differing interpretations of the textual message. The book may be of interest to a wide range of scholars and students who are concerned with the study of the English lexicon, bearing in mind that this lexicon provides the bricks of any language, and language, in turn, needs the cornerstone of Culture to stand firmly and thrive.

Complexity theory includes the tenet that recipes are more important than ingredients—any one antecedent (X) condition is insufficient for a consistent outcome (Y) (e.g., success or failure) even though the presence of certain antecedents may be necessary. A second tenet: modeling contrarian cases is useful because a high or low score for any given antecedent condition (X) associates with a high Y, low Y, and is irrelevant for high/low Y in some recipes in the same data set. Third tenet: equifinality happens—several recipes indicate high/low outcomes.

### Refugee, Migrant and Ethnic Minority Health

Osnat Keidar 2019-10-07 International migration, particularly to Europe, has increased in the last few decades, making research on aspects of this phenomenon, including numbers, challenges, and successes, particularly vital. This Special Issue highlights this necessary and relevant area of research. It presents 37 articles including studies on diverse topics relating to the health of refugees and migrants. Most articles (28) present studies focusing on European host

countries. The focus on Europe is justified if we take into consideration the increased number of refugees and migrants who have come to Europe in recent years. However, there are also articles which present studies from countries in other continents. The topics discussed in the Issue include healthcare utilization, infectious diseases, mother and child health, mental health, and chronic diseases. Finding from the included articles indicate that further development of guidelines and policies at both local and international levels is needed. Priorities must be set by encouraging and funding in-depth research that aims to evaluate the impact of existing policies and interventions. Such research will help us formulate recommendations for the development of strategies and approaches that improve and strengthen the integration of migrants

and refugees into the host countries.

### **Organisational Behaviour**

This book is particularly well-suited to short or introductory courses or those requiring a concise but broad introduction to organisational behaviour.

La «cavalleria umanistica» italiana / The Italian "Humanistic Chivalry" Antoni

Ferrando 2021-11-15 This book aims to contribute to the knowledge of the

cultural and linguistic relations between Italy and the Crown of Aragon in the 15th century. In particular, it studies some relevant aspects of the chivalric romance entitled *Curial e Guelfa*, written in Italy around 1443-1448 in Catalan, but mainly Italian in spirit, sources and onomastics. It is probably the very first work of a genre known as "humanistic chivalry", the epitome of which will be Ariosto's *Orlando furioso*. The literary context of Milan and Naples (The Three Crowns, Troubadour Lyrics, Humanism) is analyzed in the first part of the volume. It is in this context that made possible the gestation of the *Curial*, an extraordinary anonymous romance, which was most likely written by the knight Enyego d'Àvalos (Inico d'Avalos), born in Toledo but raised in Valencia. The second part of the volume is devoted to the study of some lexical, stylistic

and syntactic aspects of the *Curial*, which show the author's excellent knowledge of Catalan and the constant influence of Italian in the romance. Questo libro si propone di contribuire alla conoscenza delle relazioni culturali tra l'Italia e la Corona d'Aragona nel XV secolo. In particolare, studia il romanzo dal titolo *Curial e Güelfa*, scritto in Italia intorno al 1443-1448, dotato di italianità, fonti e onomastica, ma scritto in catalano. È probabilmente la primissima opera di un genere noto come "cavalleria umanistica", la cui epitome sarebbe l'*Orlando Furioso* dell'Ariosto. Questo volume analizza il contesto letterario di Milano e Napoli che ha reso possibile questo straordinario romanzo anonimo, di cui conosciamo ormai con quasi assoluta certezza che il suo autore era Enyego o Inico d'Avalos. I contributi in questo volume approfondiscono alcuni degli aspetti

lessicali, stilistici e sintattici di Curial e Güelfa, e mettono in evidenza l'eccellente conoscenza del catalano da parte del suo autore, nonché la presenza onnipresente della lingua italiana. El libro pretende contribuir al conocimiento de las relaciones culturales entre Italia y la Corona de Aragón en el siglo XV. En concreto se ocupa de la novela Curial e Güelfa, gestada en Italia hacia 1443-1448, de espíritu, fuentes y onomástica principalmente italianos, pero redactada en lengua catalana. Es probablemente la manifestación más primeriza del género literario conocido como "caballería humanística", que tendrá su punto culminante con el Orlando furioso, d'Ariosto. Este volumen analiza el contexto literario de Milán y Nápoles que hizo posible esta extraordinaria novela anónima, de la que ahora sabemos con

casi absoluta certeza que su autor fue Enyego o Inico d'Avalos. Las contribuciones de este volumen profundizan en algunos de los aspectos léxicos, estilísticos y sintácticos de Curial e Güelfa, y destacan el excelente conocimiento del catalán de su autor, así como la presencia onnipresente de la lengua italiana.

party competition and party systems affect reforms of social protection. Featuring a historical comparison of Italy and Germany post-1945, the book shows how a high number of parties and ideological polarisation lead to fragmented and unequal social benefits. Utilising a comparative approach, the author brings together two important issues in welfare state research that have been insufficiently investigated. Firstly, the complex influence of party competition on social policy-making, and second, how some social groups enjoy better social protection than others. Moving beyond the two countries of the case study, the book proposes an innovative framework for studying segmentation of social protection and applies this framework to a wider set of 15 advanced welfare states. Overall, this book draws together different strands of research on political parties and on

welfare states, and introduces a new argument on how party politics shapes social policy. An invaluable text on the political economy of the welfare state, *Politics of Segmentation* will be of interest to scholars of political economy, social policy and comparative politics.

### **Forms of Enterprise in 20th Century Italy**

Andrea Colli 2010-01-01

This book provides a wide-ranging analysis of change in size and nature of Italian firms, and thus a unique and fascinating perspective on the evolution of one of the major industrial economies of the 20th century. An example of business history as it ought to be done.

Giovanni Federico, European University Institute, Italy This book is necessary reading for a real understanding of the evolution of Italian capitalism during the last century. It moves away from a simplified view of the Italian industrial structure as

just composed by small enterprises and successfully sheds light on the variety of different forms of enterprises the compose Italian system. The lively picture that emerges from this book is the one of richer types of enterprises, which have evolved over time and have contributed in different ways to Italian economic growth. Franco Malerba, Bocconi University, Italy Taking an historical perspective, this unique book highlights the evolution of the many diverse forms of business enterprise, and discusses the contribution of these different types of firm to the economic growth of Italy. One important issue that has recently captured the attention and the research efforts of both economists and economic historians has been the debate on varieties of capitalism in the modern world. In this context, the expert contributors analyze the various stages of

Italian development that have been characterized by diverse dominating forms of enterprise which, in turn, have adapted to the nature of technological and market opportunities at the institutional, national and international level. This book proposes a new interpretation of the Italian case that utilizes both the structural and macroeconomic perspective of comparative history, as well as the microeconomic perspectives focusing on the strategies of different economic agents. Based on solid quantitative evidence, this original work will prove to be a valuable resource for academics and students of strategy and organization, economic historians and applied economists.
