<i>Democratisation in Lithuania</i>	communist changes in
Diana Janušauskienė 2011-01	Lithuania. The transformation of

political party system, political elites and youth political organisations in Lithuania are examined in light of democratisation in other post-communist countries. By linking theories of democratisation and elites to actual events, the book provides an analytical framework for interpreting political regime change and development in Lithuania. The book is based on five assumptions: (1) democratisation in Lithuania belongs to a OCyWestern typeOCO of democratic development; (2) elites and nationalism were the major forces in modernisation; (3) Lithuanian elites have used the

favourable conditions of perestroika and were the major actors in regime transformation; (4) the crop of political elites in Lithuania undergoes a generational change, and youth political organisations are very important in this process as they serve as schools for future politicians; and (5) class theory is less useful than elite theory when analysing the process of democratisation in Lithuania."

Renaissance and Baroque Art and Culture in the Eastern Polish-Lithuanian Commonwealth (1506-1696)

Urszula Szulakowska

2019-01-29 This monograph serves as an introduction to the art, architecture and literary culture of the Eastern Polish-Lithuanian Commonwealth in the 16th and 17th centuries.

The geographical area under discussion comprises the regions of contemporary

Lithuania, western Belarus and western Ukraine. The introduction of the Renaissance and Baroque classical revival into these lands is considered here within the political context of nationalistic and religious loyalties, as well as economic status and class. The central discussion focuses on the issue of national identity and religious loyalty in the inter-relation between the Byzantine inheritance of the Lithuanian and Ruthenian populace and the Polonizing Catholic influences entering from the west. A close study is made of the royal, noble and urban patronage of the richly-diverse visual and literary modes

developed in these two centuries, as well as examining the cultural achievements of the many national groups in the Eastern Commonwealth, including Ruthenians, Lithuanians, Poles, Armenians, Jews, Karaite and Islamic Tatars. A major issue explored here is the problem of restoring and conserving the vast amount of devastated material culture in these regions, particularly in Belarus.

The Polish-Lithuanian Commonwealth Andrzej Chwalba 2020-10-15 This volume provides a fresh perspective of the history and

legacy of the Polish-Lithuanian Commonwealth, as well as the often-disputed memory of it in contemporary Europe. The unions between the Crown of the Kingdom of Poland and the Grand Duchy of Lithuania have fascinated many readers particularly because many solutions that have been implemented in the European Union have been adopted from its Central and Eastern European predecessor. The collection of essays presented in this volume are divided into three parts – the Beginnings of Poland-Lithuania, the Polish-Lithuanian Commonwealth and Legacy and Memory of the Polish-Lithuanian

Commonwealth – and represent a selection of the papers delivered at the Third Congress of International Researchers of Polish History which was held in Cracow on 11-14 October 2017. Through their application of different historiographical perspectives and schools of history they offer the reader a fresh take on the Commonwealth's history and legacy, as well as the memory of it in the countries that are its inheritors, namely Poland, Lithuania, Latvia, Belarus and Ukraine. An exploration of one of the biggest countries in Early Modern Europe, this will be of interest to historians, political scientists, cultural

anthropologists and other scholars of the history of Central and Eastern Europe in the Early Modern period. *Culture and Subjective Well-Being* Edward Diener 2003-01-24 The question of what constitutes the good life has been pondered for millennia. Yet only in the last decades has the study of well-being become a scientific endeavor. This book is based on the idea that we can empirically study quality of life and make cross-society comparisons of subjective well-being (SWB). A potential problem in studying SWB across societies is that of cultural relativism: if societies

have different values, the members of those societies will use different criteria in evaluating the success of their society. By examining, however, such aspects of SWB as whether people believe they are living correctly, whether they enjoy their lives, and whether others important to them believe they are living well, SWB can represent the degree to which people in a society are achieving the values they hold dear. The contributors analyze SWB in relation to money, age, gender, democracy, and other factors. Among the interesting findings is that although wealthy nations are on average happier than poor ones, people do not

get happier as a wealthy nation grows wealthier.

Politics Sharon L. Wolchik 2008

This long-needed text explores the other half of Europe, the new and future members of the EU along with the problems and potential they bring to the region and to the world stage.

Clear and comprehensive, it offers an authoritative and up-to-date analysis of the transformations and realities in Central and Eastern Europe, the Baltics, and Ukraine. The book presents a set of comparative country case studies as well as thematic

chapters on key issues, including European Union and NATO expansion, the economic transition and its social ramifications, the role of women, persistent problems of ethnicity and nationalism, and political reform. For students and specialists alike, this book will be an invaluable resource on the newly democratizing states of Europe.

Politics with a Human Face
Arvydas Grišinas 2018-03-19
Politics with a Human Face
presents a holistic

understanding of identity formation in post-Soviet Europe, arguing that since politics is fundamentally a human affair. In order to adequately understand it, one needs to understand its human side first. Drawing on the thought of Dilthey, Ricoeur and Plato, the author employs empathy as a method, together with visual and historical analysis, to analyse the role of human experience in post-Soviet politics. As a result, the book offers a theoretical approach for assessing influence of the non-rationalistic factors, such as associative symbolism, human experience, political images and historical narratives, in both domestic and

foreign affairs. A study at the juncture of Social Sciences and Humanities, Politics with a Human Face explores a number of cases, including Estonia, Lithuania, Poland and Russia, as well as the ongoing conflict in Ukraine, examining issues of liminal transition, ‘far-right’ movements, victimhood, ethnic conflict and political paradoxes. Seeking to shed light on the region’s agency and perception of both its own political and existential situation, and that of the surrounding world, this book constitutes a timely and original contribution to understanding the post-Soviet Europe.

Current News on the Lithuanian Situation 1944

A Short History of Lithuania to 1569: Centennial Edition

(1921–2021) Josef A. Katzel
2021-09-17 Why did Lithuania's
dictator in the 1920s (the pro-
Nazi Augustinas Voldemaras)
kick the author out of the
country for writing this
seemingly harmless book?
What was the significance of
the fact that the author's father
tutored a teenage Lenin while
both were in law school in
Russia? And how was this
ground-breaking equivalent of
"Lithuanian History for
Dummies" about a century
ahead of its time? This
centennial edition of a ground-
breaking classic, translated into
smooth and idiomatic English,
with numerous images that
bring the story to life, includes

an introduction written by the
author's grandson—a Harvard
graduate and PhD in political
science—in which he describes
the detective work through
which he solved various
mysteries relating to the book.
He also describes three
interesting parallels that were
impressed on him, including the
striking similarities between the
dictator Voldemaras and the
present-day American
authoritarian politician Donald J.
Trump. In a sense, this book
represents a case study in the
power of the written word and
the repercussions that its
exercise can generate. One
hundred years later, at a time of
heightened assault on both truth

and freedom of speech worldwide—with authoritarianism steadily on the rise—these themes remain as timely as ever.

Regional Development in Central and Eastern Europe Grzegorz Gorzelak 2018-10-24

This book provides an up-to-date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries. It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and

development with, firstly, the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies; and, secondly, with budgetary constraints. The book covers a wide range of issues, including global and national challenges to regional convergence and cohesion; regional dynamics, city networks and border issues; the effectiveness of policy responses at national and European levels, including an assessment of policy experiences from outside the new Member States; and likely future developments.

The Impact of Foreign Direct Investment on Economic Growth of Lithuania Laura Cerkasaite 2013 Foreign direct investment (FDI) has increased rapidly in Lithuania over the past twenty years and many researchers link the increase of FDI to economic growth. This paper addresses the important question of whether foreign direct investment enhances economic growth of Lithuania. The main objective of the master thesis is to analyze empirically the impact of FDI on the GDP per capita growth rate, using quarterly data from 2002 to 2012. VEC model with cointegration technique is applied to investigate the

relationship between GDP per capita growth rate and labor force, human capital, trade openness, gross capital formation and FDI. The analysis focuses on both short-run and long-run effects of FDI on economic growth of Lithuania. The papers findings reveal that FDI negatively impacts economic growth of Lithuania in the long-run, in addition to this, EC model estimates suggest that economic growth in Lithuania is not particularly sensitive to FDI stocks in the short-run. According to the short-run analysis, impact of FDI on economic growth is not significant in the case of Lithuania. Finally, the paper

offers some recommendations linked to FDI to enhance the economic growth of Lithuania.

Conflict with Russia Dr. Alexander Nemets 2015-06-10

What's the Book about? - Primarily, it is about the developing conflict between Russia, on one hand, and America and entire West on other hand. - The war in Eastern Ukraine is described, in this Book, in a detailed way, particularly, the summer of 2014 and January-February of 2015. More than one chapter of the Book is devoted to the essence of Putin regime and the explanation of its antagonism with America. - One chapter of the Book is devoted to the

murder of Boris Nemtsov and major criminals behind the scene. - Stagnation and decline of the Russian social-economic system and suffering of its people, especially in 2014-2015, is addressed as well. (The conclusions are based on multiple facts and figures). -

This is accompanied by rapid rise of Russia's military expenditures and the upgrading of its military capabilities.

Between 2013 and 2015 Russian real military budget may increase 2.5 times! - The role of China (generally, a neutral one) in this Conflict is described as well. The author is literate in Mandarin, expert in China's Real economic

potential, China-Russia ties and China's economic expansion in Central Asia. One of the chapters is devoted to swift rise of China-Israel relations in all areas. Israel may well become an ideal mediator between America and China!

Redefining Capitalism in Global Economic Development Kui-Wai Li 2017-06-07 Redefining Capitalism in Global Economic Development reconsiders capitalism by taking into account the unfolding forces of economic globalization, especially in Asian economies.

It explores the economic implications and consequences of recent financial crises,

terrorism, ultra-low interest rates that are decades-long, debt-prone countries and countries with large trade surpluses. The book illuminates these economic implications and consequences through a framework of capitalist ideologies and concepts, recognizing that Asia is redefining capitalism today. The author, Li, seeks not to describe why nations fail, but how the sustainability of capitalism can save the world. Merges capitalist theory with global events, as few books do. Emphasizes ways to interpret capitalist ideas in light of current global affairs. Reframes capitalism via economics,

supported by insights from political science, sociology, international relations and peace studies

Consultation highlights that the Lithuanian economy is undergoing a severe adjustment, after years of rapid economic growth and financial integration. With the global financial crisis, the unwinding of the imbalances accumulated during the boom has led to a sharp economic contraction. Capital inflows came to a halt in late 2008 and reversed in 2009, and the current account deficit

turned into a surplus. Executive Directors have recognized the authorities' strong commitment to maintain the currency board arrangement, which has served as a useful macroeconomic anchor.
