Ukraine in the Crossfire Chris Kaspar de Ploeg 2017-04-05 Ukraine is embroiled in a bloody civil war. Both sides stand accused of collaborating with fascists, of committing war crimes, of serving foreign interests. This proxy-war between Russia and the West was accompanied by a fierce information war. This book separates fact from fiction with extensive and reliable documentation. While remaining critical of Russia and the Donbass rebellion, De Ploeg demonstrates that many of the recent disasters can be traced to Ukrainian ultranationalists, pro-western political elites and their European and North-American backers. Ukraine in the Crossfire tackles the importance of ultranationalist violence during and after the EuroMaidan movement, and documents how many of these groups are heirs to former nazi-collaborators. It shows how the Ukrainian state has seized on the ultranationalist war-rhetoric to serve its own agenda, clamping down on civil liberties on a scale unprecedented since Ukrainian independence. De Ploeg argues that Kiev itself has been the biggest obstacle to peace in Donbass, with multiple leaks suggesting that US officials are pushing for a pro-war line in Ukraine. With the nation's eyes turned towards Russia, the EU and IMF have successfully pressured Ukraine into adopting far-reaching austerity programs, while oligarchic looting of state assets and massive tax-avoidance facilitated by western states continue unabated. De Ploeg documents the local roots of the Donbass rebellion, the overwhelming popularity of Crimea's secession, and shows that support for Ukraine's pro-western turn remains far from unanimous, with large swathes of Ukraine's Russophone population opting out of the political process. Nevertheless, De Ploeg argues, the pro-Western and pro-Russian camps are often similar: neoliberal, authoritarian, nationalist and heavily dependent on foreign support. In a wider exploration of Russo-Western relations, he examines similarities between the contemporary Russian state and its NATO counterparts, showing how the two power blocs have collaborated in some of their worst violent excesses. A far cry from civilizational or ideological clashes, De Ploeg argues that the current tensions flow from NATO's military dominance and aggressive posture, both globally and within eastern Europe, where Russia seeks to preserve the status-quo. Packed with shocking facts, deftly moving from the local to the international, from the historical to the recent; De Ploeg connects the dots.

Ukraine's Orange Revolution Andrew Wilson 2006-01-12 The remarkable popular protest in Kiev and across Ukraine following the cooked presidential election of November 2004 has transformed the politics of eastern Europe. Andrew Wilson witnessed the events firsthand and here looks behind the headlines to ascertain what really happened and how it will affect the future of the region. It is a dramatic story: an outgoing president implicated via secret tape-recordings in corruption and murder; a shadowy world of political cheats and manipulators; the massive covert involvement of Putin's Russia; the poisoning of the opposition challenger; and finally the mass protest of half a million Ukrainians that forced a second poll and the victory of Viktor Yushchenko. As well as giving an account of the election and its aftermath, the book examines the broader implications of the Orange Revolution and of Russia's serious

miscalculation of its level of influence. It explores the likely chain reaction in Moldova, Belarus, and the nervous autocracies of the Caucasus, and points to a historical transformation of the geopolitics of Eurasia.

**Turkey-Ukraine Relations: High Potential, Low Voltage** Habibe Özdal 2011-12-01 With its strategic location of the existing power lines and economic potential, Ukraine, as one of the most important countries of Eastern Europe, is one of the pilot countries with which Turkey aims to develop its relations in an 'exemplary manner'. Besides, since Ankara and Kiev, share common values and priorities within the framework of preserving stability in the region, the Black Sea neighborhood adds another dimension to bilateral relations. With the High-Level Strategic Council founded in May 2010, it is aimed to improve political and economic relations. Moreover with visa exemption agreement, which is going to be signed in December 2011, will not only increase tourism activities but also expected to intensify the mutual inter-communal relations. Even though there is a consensus on accelerating existing relations in which high level visits frequently occur, the effective potential is not available yet due to differences in political agendas. This has both structural and cyclical reasons. In this study, before proceeding to the analysis of Turkey-Ukraine relations, Ukraine's economic structure and political process is going to be evaluated in a comprehensive way, for better understanding of the Ukraine politics as well as bilateral relations.

**Jahrbuch Migration und Gesellschaft / Yearbook Migration and Society 2020/2021** Hans Karl Peterlini 2021-06-30 Migration is not a state of emergency, but a basic existential experience of humanity. It shapes contemporary societies by challenging established orders, creating transnational spaces beyond national hegemonies, creating new economies, influencing urban and communal ways of life, making inequality and precariousness visible locally and globally. Migration research as a social science does not narrow the focus to 'the migrants', but investigates the conditions for living together and shaping life between ethnicization and pluralization, discrimination and empowerment, division and participation. The Yearbook Migration and Society repeatedly turns the prism of narrative anew. The 2020/2021 edition focuses on the topic "Beyond Borders".

**Contemporary Ukraine on the Cultural Map of Europe** Larissa M. L. Zaleska Onyshkevych 2014-12-18 The concept of a 'return to Europe' has been integral to the movement for Ukrainian national rebirth since the nineteenth century. While the goal of a more fully reformed politics remains elusive, numerous expressions of Ukrainian culture continue to develop in the European spirit. This wide-ranging book explores Ukraine's European cultural connection, especially as it has been reestablished since the country achieved independence in 1991. The contributors discusses many aspects of Ukraine's contemporary culture - history, politics, and religion in Part I; literary culture in Part II; and language, popular culture, and the arts in Part III. What emerges is a fascinating picture of a young country grappling with its divided past and its colonial heritage, yet asserting its voice and preferences amid the diverse and at times conflicting realities of the contemporary political scene. Europe becomes a powerful point of

reference, a measure against which the situation in post-independence Ukraine is gouged and debated. This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society.

**Law and Practice of International Arbitration in the CIS Region** Kaj Hober 2016-04-24 The former Soviet republics of the Commonwealth of Independent States (CIS) generate a significant and growing amount of work for the major Western and CIS regional international arbitral institutions. This book, a country-by-country analysis of regulation and practice of international arbitration in ten CIS jurisdictions, offers the first comprehensive review of commercial arbitration in the region. It also analyses notable developments in the use of arbitration mechanisms contained in bilateral and multilateral investment treaties affecting the region. The book provides not only a detailed analysis of the law, but also insight from local practitioners into the culture of arbitration and how the law is applied in each jurisdiction. Jurisdictions covered include Armenia, Azerbaijan, Belarus, Kazakhstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan. In addition to detailed discussion of the particular features of arbitral practice in each jurisdiction, contributions cover the following issues and topics: • arbitrability of disputes and public policy; • arbitral procedure; • recognition and enforcement of commercial and investor-state arbitration awards; • implementation of the UNCITRAL Model Law and other instruments affecting arbitral practice and procedure; • statistics from key arbitration institutions; • adherence to the ICSID, New York and key regional conventions relevant to arbitration; • relevant regulations, cases as well as applicable bilateral investment treaties; • law and practice related to investor-state arbitration; and • role of the Court of the Eurasian Economic Union. An informative introductory chapter provides detailed discussion and analysis of historic and current trends affecting arbitration practice among the CIS countries, including the role of regional conventions relatively unknown in the West. As a comprehensive overview of international arbitration in this burgeoning region, this book has no peers. It is sure to be highly valued and used by lawyers, arbitrators, and academics concerned with alternative dispute resolution, as well as by arbitration institutions, companies, states, and individuals engaged in arbitration.

*Recognition and Enforcement of Foreign Arbitral Awards in Russia and Former USSR States* Roman Zykov 2021-04-22 The 15 sovereign states that emerged from the dissolution of the Union of Soviet Socialist Republics (USSR) in 1991, having all adopted the New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards, today are drawing increasing attention from international law firms and global arbitral institutions. This book, compiled under the editorship of the Secretary General of the Russian Arbitration Association, is the first full-scale commentary in English on the application of the New York Convention in Russia and the other 14 former USSR states, with attention also to the various relevant national laws and procedures. A total of 71 contributors, all leading experts on arbitration and litigation in the covered jurisdictions, provide in-depth research encompassing the following approaches: article-by-article commentary on the New York Convention with emphasis on the practice of Russian state commercial (arbitrazh) courts; commentary on the relevant provisions of the Russian International Commercial Arbitration Law and the Code of Commercial Procedure; analysis of law and practice on setting aside, recognition, and enforcement of arbitral awards in all non-Russian former USSR states, state by state, written by experts in each jurisdiction; and a unique statistical study of all international commercial arbitration cases under the New York Convention conducted in Russia between 2008 and 2019, showing which grounds of the New York Convention are widely used by the Russian courts in different instances. With this detailed information, practitioners will be able to understand how judicial developments in the covered jurisdictions have impacted the enforceability of arbitral awards, and how parties can take steps

to ensure that they secure enforceable awards. In addition, they will clearly discern the enforcement track record for arbitral awards in Russia and former USSR states and how each jurisdiction treats enforcement applications, greatly clarifying decisions on choices by parties and determination of seat of arbitration. Because this book makes arbitration law and procedure in Russia and the former USSR states accessible for the first time in English – thus assisting evaluation of prospects of enforcing foreign arbitral awards in that part of the world – it will be warmly welcomed by in-house counsel, arbitrators, arbitral institutes, judges, researchers, and academics focused on international arbitration.

*From “the Ukraine” to Ukraine* Matthew Kasianov, Georgiy Minakov, Mykhailo Rojansky 2021-05-11 The contributors to this collection explore the multidimensional transformation of independent Ukraine and deal with her politics, society, private sector, identity, arts, religions, media, and democracy. Each chapter reflects the up-to-date research in its sub-discipline, is styled for use in seminars, and includes a bibliography as well as a recommended reading list. These studies illustrate the deep changes, yet, at the same time, staggering continuity in Ukraine’s post-Soviet development as well as various counter-reactions to it. All nine chapters are jointly written by two co-authors, one Ukrainian and one Western, who respond here to recent needs in international higher education. The volume’s contributors include, apart from the editors: Margarita M. Balmaceda (Seton Hall University), Oksana Barshynova (Ukrainian National Arts Museum), Tymofii Brik (Kyiv School of Economics), José Casanova (Georgetown University), Diana Dutsyk (Kyiv-Mohyla Academy), Marta Dyczok (University of Western Ontario), Hennadii Korzhov (Kyiv Polytechnic Institute), Serhiy Kudelia (Baylor University), Pavlo Kutuev (Kyiv Polytechnic Institute), Olena Martynyuk (Columbia University), Oksana Mikheieva (Ukrainian Catholic University), Tymofii Mylovanov (University of Pittsburgh), Andrian Prokip (Ukrainian Institute for the Future), Oxana Shevel (Tufts University), Ilona Sologoub (Kyiv School of Economics), Maksym Yenin (Kyiv Polytechnic Institute), and Yuliya Yurchenko (University of Greenwich).

*Democracy Promotion in the EU’s Neighbourhood* Sandra Lavenex 2013-09-13 EU external democracy promotion has traditionally been based on ‘linkage’, i.e. bottom-up support for democratic forces in third countries, and ‘leverage’, i.e. the top-down inducement of political elites towards democratic reforms through political conditionality. The advent of the European Neighbourhood Policy and new forms of association have introduced a new, third model of democracy promotion which rests in functional cooperation between administrations. This volume comparatively defines and assesses these three models of external democracy promotion in the EU’s relations with its eastern and southern neighbours. It argues that while ‘linkage’ has hitherto failed to produce tangible outcomes, and the success of ‘leverage’ has basically been tied to an EU membership perspective, the ‘governance’ model of democracy promotion bears greater potential beyond the circle of candidate countries. This third approach, while not tackling the core institutions of the political system as such, but rather promoting transparency, accountability, and participation at the level of state administration, may turn out to remain the EU’s most tangible form of democratic governance promotion in the future. This book was originally published as a special issue of Democratization.

**The Ukraine Conflict** Derek Averre 2018-10-19 It is not hyperbole to suggest that the foundations of post-cold war security in Europe have been badly damaged by the conflict in Ukraine since 2014. Russia’s annexation of Crimea and intervention in eastern Ukraine appear to have created a ‘simmering’ conflict, which may take years to resolve and have profound consequences for the European security environment. This volume explores the various political, economic and social aspects of these profound changes and their wider significance for Europe, bringing together contributions by scholars from across the continent and in various disciplinary fields to offer an authoritative, in-depth examination of the complex causes of the Ukraine crisis

and the consequences for Ukrainian statehood, Ukraine's relations with Russia, Russia's own domestic governance and Russia's relations with Europe. This book was originally published as a special issue of Europe-Asia Studies.

**Russia-EU Relations and the Common Neighborhood** Irina Busygina 2017-07-20 Examining Russia-EU relations in terms of the forms and types of power tools they use, this book argues that the deteriorating relations between Russia and the EU lie in the deep differences in their preferences for the international status quo. These different approaches, combined with economic interdependence and geographic proximity, means both parties experience significant difficulties in shaping strategy and formulating agendas with regards to each other. The Russian leadership is well aware of the EU's "authority orientation" but fails to reliably predict foreign policy at the EU level, whilst the EU realizes Russia's "coercive orientation" in general, but cannot predict when and where coercive tools will be used next. Russia is gradually realizing the importance of authority, while the EU sees the necessity of coercion tools for coping with certain challenges. The learning process is ongoing but the basic distinction remains unchanged and so their approaches cannot be reconciled as long as both actors exist in their current form. Using a theoretical framework and case studies including Belarus, Georgia and Ukraine, Busygina examines the possibilities and constraints that arise when the "power of authority" and the "power of coercion" interact with each other, and how this interaction affects third parties.

**Green Finance and Investment Inventory of Energy Subsidies in the EU's Eastern Partnership Countries** OECD 2018-06-04 This publication aims to provide the first comprehensive and consistent record of energy subsidies in the EaP region, with a view to improving transparency and establishing a solid analytical basis that can help build the case for further reforms in these countries.

**Revolution and War in Contemporary Ukraine** Olga Bertelsen 2016-10-01 What are the reasons behind, and trajectories of, the rapid cultural changes in Ukraine since 2013? This volume highlights: the role of the Revolution of Dignity and the Russian-Ukrainian war in the formation of Ukrainian civil society; the forms of warfare waged by Moscow against Kyiv, including information and religious wars; Ukrainian and Russian identities and cultural realignment; sources of destabilization in Ukraine and beyond; memory politics and Russian foreign policies; the Kremlin's geopolitical goals in its 'near abroad'; and factors determining Ukraine's future and survival in a state of war. The studies included in this collection illuminate the growing gap between the political and social systems of Ukraine and Russia. The anthology illustrates how the Ukrainian revolution of 2013-2014, Russia's annexation of the Crimean peninsula, and its invasion of eastern Ukraine have altered the post-Cold War political landscape and, with it, the regional and global power and security dynamics.

**Proceedings of the 2nd International Conference on Building Innovations** Volodymyr Onyshchenko 2020-06-13 This book gathers the latest advances, innovations, and applications in the field of building design and construction, by focusing on new design solutions for buildings and new technologies creation for construction, as presented by researchers and engineers at the 2nd International Conference Building Innovations (ICBI), held in Poltava - Baku, Ukraine - Azerbaijan, on May 23-24, 2019. It covers highly diverse topics, including structures operation, repairing and thermal modernization in existing buildings and urban planning features, machines and mechanisms for construction, as well as efficient economy and energy conservation issues in construction. The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.

**Reforming Civil-Military Relations in New Democracies** Aurel Croissant 2017-03-20 This book addresses the challenge of reforming defense and military policy-making in newly democratized nations. By tracing the development of civil-military relations in various new democracies from a comparative perspective, it links two bodies of scholarship that thus far have remained largely separate: the study of emerging (or failed) civilian control over armed forces on the one hand;

and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other. The empirical and theoretical findings presented here will appeal to scholars of civil-military relations, democratization and security issues, as well as to defense policy-makers.

**Nations in Transit 2010** Freedom House 2010-11-16 Since 1995, the Nations in Transit series has monitored the status of democratic change from Central Europe to Eurasia and pinpointed for policymakers, researchers, journalists, and democracy advocates alike the greatest reform challenges and reform opportunities facing the countries and territories that make up this vast geographic space. Covering 29 countries and administrative areas, Nations in Transit 2010 provides comparative ratings and in-depth analysis of electoral processes, civil society, independent media, national democratic governance, local democratic governance, judicial framework & independence, and corruption. Freedom House—which for more than a quarter century has rated global political rights and civil liberties in its benchmark Freedom in the World surveys—has developed a ratings system that allows for comparative analysis of reforms. Nations in Transit findings have drawn important linkages between democratic accountability, good governance, and the rule of law. In doing so it has made clear the essential nature of all these elements to the development of stable, free, and prosperous societies. The results are incisive, authoritative, and comprehensive.

**Investing in Russia, the Ukraine, Latvia, Lithuania and Kazakhstan** Gil Feiler 2007 This is the first comprehensive informational database of the major political, economic, and legal issues that organizations worldwide need to know about in order to do business in Russia and surrounding countries. The text summarizes the major economic developments in this dynamic region, provides accurate and up-to-date sources on business legislation, and gives crucial practical advice to business people and foreign investors. Using local as well as international sources, each country text provides detailed information on: --- the best business opportunities and sectors --- legal issues relevant to trade and business activities, including franchising --- investment laws, the judiciary, labor law, taxation, IPR laws, currency and banking, and business partnership opportunities --- contact details of government offices, business associations, calendars of business events, etc. While the energy sector holds a global significance and tops the international business communities' investment priorities, especially in Russia and Kazakhstan, economic dynamism has been demonstrated over the last decade in all these countries, and there are substantial business opportunities in all economic sectors. The book is written by an economics analyst with a proven track record in providing business information, and a corporate lawyer with extensive experience of engaging at a contractual level with business and government organizations in these countries. It is essential reading for all those involved in legal, business, investment, and political decision-making.

**Corporate Governance in Emerging Markets** Sabri Boubaker 2014-04-01 This book fills the gap between theories and practices of corporate governance in emerging markets by providing the reader with an in-depth understanding of governance mechanisms, practices and cases in these markets. It is an invaluable resource not only for academic researchers and graduate students in law, economics, management and finance but also for people practicing governance such as lawmakers, policymakers and international organizations promoting best governance practices in emerging countries. Investors can benefit from this book to better understand of

these markets and to make judicious investment decisions.

**Legal Responses to Football Hooliganism in Europe** Anastassia Tsoukala 2016-04-21 This book brings together a number of perspectives on how different European states have responded to the phenomenon of football crowd disorder and violence, or "hooliganism". It applies a comparative legal approach, with a particular focus on civil and human rights, to analyze domestic legislation, policing and judicial responses to the problem of "football hooliganism" in Europe. Academics and legal professionals from eight different European countries introduce and analyze the different approaches and draw together common themes and problems from their various jurisdictions. They offer insights into the interactions between (domestic) politicians, law enforcers and sports authorities. The book is important reading for scholars and practitioners in the fields of law, sports law, sociology and criminology, and for all those concerned with questions of law enforcement and human rights. While it perfectly fits the curriculum for postgraduate studies in the fields mentioned, it is also highly recommended as secondary reading for undergraduate students. Dr. Anastassia Tsoukala is tenured Associate Professor at the University of Paris XI, France. Dr. Geoff Pearson is Senior Lecturer in Criminal Law at the University of Manchester's Law School, Manchester, United Kingdom. Dr. Peter Coenen was Assistant Professor of Law at Maastricht University in the Netherlands.

*The War in Ukraine's Donbas* David R. Marples 2021-12-21 This collective work analyzes the ongoing conflict in Ukraine, providing a coherent picture of Ukraine and Eastern Europe in the period 2013–2020. Giving voice to different social groups, scholarly communities and agencies relevant to Ukraine's recent history, *The War in Ukraine's Donbas* goes beyond simplistic media interpretations that limit the analysis to Vladimir Putin and Russian aims to annex Ukraine. Instead, the authors identify the deeper roots linked to the autonomy and history of Donbas as a region. The contributions explore local society and traditions and the alienation from Ukraine caused by the events of Euromaidan, which saw the removal of the Donetsk-based president Viktor Yanukovich. Other chapters address the refugee crisis, the Minsk Accords in 2014 and the impact of the new president Volodymyr Zelensky and his efforts to bring the war to an end by negotiations among Russia, Ukraine, France, and Germany. The book concludes with four proposals for a durable peace in Donbas: territorial power-sharing; the conversion of rebels into legitimate political parties; amnesty for all participants of the armed conflict; and a transitional period of several years until political institutions are fully re-established.

**Equidosimetry** F. Bréchnignac 2007-05-22 Considerable experience with radioecological and related ecological research on terrestrial and aquatic ecosystems has been achieved, especially after the Chernobyl accident. The combined effects of the radiation, chemical and biological factors, after a contamination of the environment and during its remediation have shown an interactive complexity that highlights the need for equidosimetrical evaluations of the influence of the various stressors and the need for their ecological normalization. In radioecology and radiation protection, methods of radiation dosimetry are key for dose assessment. It is therefore highly desirable to develop a clear theoretical approach as well as a practical method of equidosimetry that would allow for an ecological normalization of the different stressors in unified uniform units, especially for comparison purposes.

**Three Revolutions: Mobilization and Change in Contemporary Ukraine I** Pawel Mink, Georges Reichardt, Iwona Kowal 2019-10-31 Volume One of Three Revolutions presents the overall research and discussions on topics related to the revolutionary events that have unfolded in Ukraine since 1990. The three revolutions referred to in this project include: the Revolution on Granite (1990); the Orange Revolution (2004–2005); and the Euromaidan Revolution (2013–2014). The project's overall goal was to determine the extent to which we have the right to use the term "revolution" in relation to these events. Moreover, the research also uncovered

the methodological problems associated with this task. Lastly, the project investigated to what extent the three revolutions are connected to each other and to what extent they are detached. Hence, the research in this volume not only discusses the theoretical aspects but also provides new analyses on such issues as religion, memory, and identity in Ukraine.

*Ukraine Over the Edge* Gordon M. Hahn 2017-12-31 "It was not only Ukraine that went over the edge in 2014, but the whole European security system disintegrated, while a 'new cold war' chills relations between the great powers. In this masterful study, Gordon Hahn examines how Ukraine's internal divisions combined with external lines of fragmentation to create an explosive mix, which in turn intensified domestic conflicts. The result is an internationalized civil conflict, with catastrophic consequences for Ukraine and the world. Hahn is one of the few scholars with the knowledge and discernment to make sense of it all. His impressively well-researched and well-written book is essential reading."--Richard Sakwa, University of Kent "This impressively researched and strongly argued book is an essential corrective to the myths that have been generated concerning the crisis in Ukraine, and an essential warning against a continuation of the frivolous and dangerous policies of regime change adopted by the West after the end of the Cold War."--Anatol Lieven, Professor, Georgetown University in Qatar and author of *Ukraine and Russia, A Fraternal Rivalry* "Ukraine Over the Edge is a rigorous analysis of the cultural, historical, and intellectual origins of the Ukrainian crisis. While stressing that blame for the latest phase of this crisis is shared all around, Hahn traces its domestic origins to the militancy of the opposition to president Yanukovich, and its international origins to NATO expansion, which he regards as militarized democracy-promotion. The result is both a sophisticated, multilevel analysis of how and why Ukraine emerged as the key hotspot in East-West relations, and an indispensable guide for those wishing to understand the origins of the New Cold War."--Nicolai N. Petro, Silvia-Chandley Professor of Peace Studies and Nonviolence, University of Rhode Island "Ukraine Over the Edge is a very useful contribution to understanding origins and key developments of the crisis in this important European and post-Soviet country. Gordon M. Hahn challenges simplistic and often misleading narratives by the media and politicians and provides a corroboration that the Maidan massacre was a false flag mass killing."--Ivan Katchanovski, University of Ottawa. The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making. Two great schisms shaped events: one lay within Ukraine itself, with its western and southeastern parts divided along cultural and political lines; the other, at the international level, was driven by geopolitical factors real and perceived. Competition for Ukraine between Russia and the West--epitomized by NATO and EU expansion to Russia's borders--exacerbated Ukraine's internal divisions. This study focuses on the historical background and complex causality of the crisis, from the rise of the mass demonstrations on Kiev's Maidan Nezalezhnosti (Independence Square) to the making of the post-revolt regime. In the context of a "new cold war," the author sheds new light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers' massacre, the ouster of President Viktor Yanukovich and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass.

Conspiracy Theories in Eastern Europe Anastasiya Astapova 2020-10-29 This collection of state-of-the-art essays explores conspiracy cultures in post-socialist Eastern Europe, ranging from the nineteenth century to contemporary manifestations. Conspiracy theories about Freemasons, Communists and Jews, about the Chernobyl disaster, and about George Soros and the globalist elite have been particularly influential in Eastern Europe, but they have also been among the most prominent worldwide. This volume explores such conspiracy theories in the context of local Eastern European histories and discourses. The chapters identify four major factors that have influenced cultures of conspiracy in Eastern Europe: nationalism (including ethnocentrism and antisemitism), the socialist past, the transition period, and globalization. The research focuses on the impact of imperial legacies, nation-building, and the Cold War in the creation of conspiracy theories in Eastern Europe; the effects of the fall of the Iron Curtain and conspiracism in a new democratic setting; and manifestations of viral conspiracy theories in contemporary Eastern Europe and their worldwide circulation with the global rise of populism. Bringing together a diverse landscape of Eastern European conspiracism that is a result of repeated exchange with the "West," the book includes case studies that examine the history, legacy, and impact of conspiracy cultures of Bulgaria, Estonia, Hungary, Moldova, Poland, Romania, Russia, Slovakia, Ukraine, the former Yugoslav countries, and the former Soviet Union. The book will appeal to

scholars and students of conspiracy theories, as well as those in the areas of political science, area studies, media studies, cultural studies, psychology, philosophy, and history, among others. Politicians, educators, and journalists will find this book a useful resource in countering disinformation in and about the region.

**Beyond the Cold War of Words** Sijbren de Jong 2015-04-20 This report is commissioned by RNW, an international media organization based in The Netherlands that aims to promote free speech and fundamental freedoms in countries where these are severely restricted. RNW (co)creates content and online platforms where young people can form and express their opinions about sensitive issues. This study zooms in on a select number of countries belonging to the post-Soviet space that lie on the fault lines of overlapping spheres of influence between Europe and Russia. Specifically, the report assesses the risks of the current one-sided media services to Russian speaking minorities in Latvia, Belarus, Ukraine and Moldova. In doing so, the study examines the extent to which RNW could make a meaningful contribution to a more balanced information service, focusing on online and social media. Furthermore, the report analyzes the opportunities for RNW to operate in these countries, and provides an inventory of the kinds of (legal) barriers that exist that could hinder this aim.
